

SATURN

1991-2002 SC

PRECAUTIONS

Warning: When performing service on or near the SIR components or the SIR wiring, the SIR system must be disabled. Failure to observe the correct procedure could cause deployment of the SIR components, personal injury, or unrequired SIR system repairs.

Warning: Batteries generate hydrogen gas, which is extremely flammable and may explode violently if ignited by a spark or a flame. Battery acid is extremely corrosive and causes severe personal injury if the acid comes into

contact with skin, and blindness if the acid comes into contact with eyes. In order to avoid severe personal injury, use extreme caution when servicing the battery or battery-related components.

BATTERY

Removal

1. Record preset radio stations.
2. Disconnect battery ground cable.
3. Disconnect positive battery cable.
4. Remove battery insulating cover.

5. Remove battery hold down bracket.
